Mirai

1918-006

Mirai
 Mirai is one of the strongest fabric textures of the season and has elegant feel.
 It is a more vibrant and soft fabric.
 1018-005

Design colour is close to the original fabric. Difference of 1 cm between actual length and
design length is allowed and noted here.

Light colour is one of the strongest factors behind it. The subtle and soft design of the fabric is also a factor.

Mirai
 Bright colors, a print of the designed fabric, a mix of the colors and the designs give
 the look a new vibrant and lively effect.
