"You gotta have style. It helps you get down the stairs. It helps you get up in the morning. It's a way of life. Without it, you're nobody. I'm not talking about loss of clothes."

Attitude look

In the 21st century, the high quality of the fashion industry demands the world across than they ever did and world is not only the one people desire to it. It's hard to have a change-making fashion and people around the globe in the city center place. And only with their own style and attitude of the world, they can be a person and live in our time period today.

There is a big part of my style. You have to be willing to fall on your face a little to be that fashion icon. I know, so many people who are die-hard fashion people who are way more educated than I am but I love fashion. It's so much more important than just success!

"Fashion is not something that exists in dresses only. Fashion is in the sky, in the street, in the eyes. Fashion has to do with the soul, the way we live, what is happening."
